2)

3). Abstract uploading

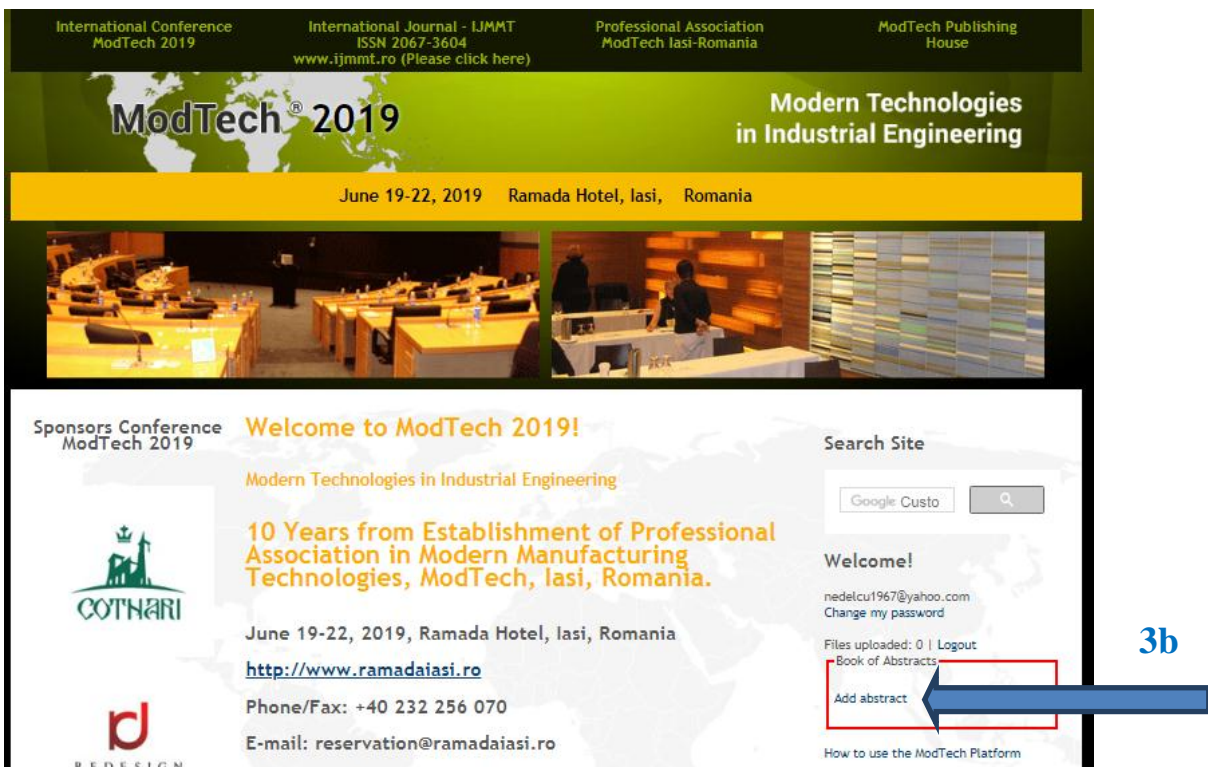

The abstract should be a Word file the template of which can be downloaded by clicking on “Call for Papers” → “Abstract template”.

3a). Download the Abstract Template

The screenshot shows the ModTech 2019 website. The top navigation bar includes links for the International Conference ModTech 2019, International Journal - IJMNT (ISSN 2067-3604, www.ijmmt.ro), Professional Association ModTech Iasi-Romania, and ModTech Publishing House. The main header features the ModTech 2019 logo and the title 'Modern Technologies in Industrial Engineering' with the dates 'June 19-22, 2019' and location 'Ramada Hotel, Iasi, Romania'. A left sidebar menu lists various options, with 'Call for Papers' highlighted. A blue arrow points from the 'Call for Papers' menu item to the 'Abstract Template' link in the main content area. Below the main header, there is a 'Welcome to ModTech 2019!' section with contact information for the Professional Association in Modern Manufacturing Technologies, including the website <http://www.ramadaiasi.ro> and email reservation@ramadaiasi.ro. A search bar and a 'Welcome!' section with user information and a red-bordered 'Add abstract' button are also visible.

3b). Click on Add abstract button

This screenshot shows the same website as in 3a, but with a different focus. The 'Add abstract' button in the 'Welcome!' section is highlighted with a red border and a blue arrow. The 'Call for Papers' menu is no longer visible. The rest of the page content, including the header, main title, and contact information, remains the same.

3c). Abstract uploading

The final message will be *Added with success*.

4). Attendance Application Form (AAF)

The Attendance Application Form (AAF) will be online and is compulsory to be filled and send before uploading the paper.

*First / Last Name:

*Didactic/Scientific Position:

*Institution:

*Address:

*Phone/Mobile:

*Fax:

*Email:

*Paper Title / Paper Title:

*Conference Sections Attendance (Please check all that apply):

- A: Engineering of Manufacturing Process:** Novel Manufacturing Methods; Advances in Nontraditional Manufacturing Processes; Virtual Manufacturing; Advanced Methods and Tools for Computer Integrated Manufacturing; New Industrial Applications; Smart Manufacturing; Energy Efficiency in Manufacturing.
- B: Advances in Composite Materials and Technologies:** Advanced Metals, Ceramics and Polymers; Bio-Materials; Recycling of Materials.
- C: Characterization, Modeling and Simulation of Mechanical Processes:** Mechanical, Structural, Physical and Geometrical Characterization; Probabilistic Modeling and Analysis.
- D: Robotics and Computer Integrated Manufacturing:** Industrial Robots, CIM Systems, Biological Inspired Robotics, Social Robotics, Entertainment Robotics.
- E: Technology Transfer:** Knowledge Management Case Studies; Knowledge Communication; Knowledge Portals; Innovation and Engineering Education; Business Intelligence; Business Process Modeling and Analysis, Process Planning and Flexible Workflow; Security in Business Process.
- F: Micro and Nano Technologies:** New Developments in Micro/Nano Scale Processes; Fabrication of Nanostructure and Materials; Nanoflms, Nano-bubbles, Nano-droplets, Nanofluids.
- G: Maritime Engineering and Navigation:** Maritime Engineering and Technologies, Maritime Transport and Economics.
